Course Director: Edward M. Phillips, MD; Founder and Director of the Institute of Lifestyle Medicine (ILM), Department of Physical Medicine and Behabilitation at Harvard Medical School

#### Dear Colleague,

Our daily work as healthcare professionals increasingly involves caring for patients with diseases that are ultimately caused by or exacerbated by poor diet, lack of exercise, stress, inadequate sleep and smoking. Yet professional training does not adequately prepare us to leverage our position of trust to help patients initiate health-promoting behaviors. At the same time, we are seeing payment structures rapidly evolve to reward clinicians based upon our patients' health behaviors and health outcomes.

These factors have given rise to an overwhelming demand for evidence-based, lifestyle medicine practices that have been shown to reduce patient risk for chronic diseases. That is precisely what is offered at Lifestyle Medicine 2015.

Some of the country's most experienced and committed lifestyle medicine experts will offer cutting-edge research, accumulated knowledge, and hands-on methods to further your expertise in guiding your patients to healthier lives.

In this immersive, two-day experience, you will learn proven practices, accrue state-of-the-art skills, and acquire take-home tools to enable your success in effectively and efficiently helping your patients adopt and sustain lifestyle behaviors that will improve their health and quality of life.

Prior course participants describe a renewed passion for practicing medicine and reduced personal stress as they themselves learn to pay attention to their own health and to serve as role models for their patients.

I look forward to seeing you in Boston in June.

Edward Phillips, MD

Founder and Director, Institute of Lifestyle Medicine in the Department of Physical Medicine and Rehabilitation at Harvard Medical School

- Physicians
- Nurse practitioners
- Physician assistants
- Registered nurses
- Fitness, nutrition, and wellness professionals
- Healthcare executives
- Health coaches
- Exercise physiologists
- Physical and occupational therapists
- Psychologists
- Social workers
- Residents
- Fellows

## **Overview**

#### **Lifestyle Medicine**

Lifestyle Medicine not only prevents disease, but is integral to the *treatment* of many noncommunicable chronic diseases:

- Type-2 diabetes
- Hypertension
- Cardiovascular disease
- Stroke
- High cholesterol
- Many cancers, including breast and colon
- Depression
- Anxiety
- Osteoarthritis
- · Sexual health issues

### **COURSE DESCRIPTION**

According to the World Health Organization, by 2020, two-thirds of all disease worldwide will be the result of lifestyle choices. Currently, the leading causes of death in the United States are lifestyle related: poor diet, lack of exercise, obesity, tobacco use, and overconsumption of alcohol. This course is designed to change your competence and performance-in-practice by increasing your knowledge of lifestyle medicine and helping you develop strategies to incorporate into patient care, providing the newest science of nutrition, physical activity, and stress management skills. The course will focus on effectively counseling your patients to improve their overall lifestyle, including stress management, diet, and exercise. You will also have the opportunity to commit to improving your personal health practices so that you can serve as a better role model for your patients.

#### **Learning Objectives:**

Upon completion of this course, participants will be able to:

- Recognize that lifestyle choices are the root cause of the majority of disease, death and healthcare cost.
- Utilize evidence-based practices in health coaching to support initial behavior change and to sustain the new behavior.
- More effectively and efficiently counsel patients on the importance of lifestyle changes.
- Develop strategies to encourage patients to make and meet their new lifestyle goals.

#### Course Directors

#### Edward M. Phillips, MD

Dr. Phillips is Assistant Professor of Physical Medicine and Rehabilitation at Harvard Medical School and Director of the Institute of Lifestyle Medicine (ILM) at the Joslin Diabetes Center. In his work at the ILM he has directed 14 live CME programs, starting in India in 2006 and continuing with twice-yearly courses sponsored by the Harvard Medical School Department of Continuing Education. He oversees a suite of 7 online CME modules in Lifestyle Medicine completed by over 9,000 clinicians from 115 countries.

#### Elizabeth Pegg Frates, MD

Elizabeth Pegg Frates, MD is the Founder and Director of Wellness Synergy, LLC, and Director of Medical Student Education at the Institute of Lifestyle Medicine. She is co-author of *Life After Stroke: The Guide to Recovering Your Health and Preventing Another Stroke* and of the online Harvard Medical School CME courses, "Lifestyle Medicine: The Exercise Prescription" and "Lifestyle Medicine: Metabolic Syndrome and Nutrition." An Assistant Professor, part-time in the Department of Physical Medicine and Rehabilitation at Harvard Medical School, Dr. Frates is a trained and certified wellness coach who works with both patients and physicians to achieve optimum levels of wellness.

#### **Accreditation**

The Harvard Medical School is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

The Harvard Medical School designates this live activity for a maximum of 17 AMA PRA Category 1 Credits™.

The Harvard Medical School designates this enduring material for a maximum of 4 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

**Explanation of Credit Award:** Earn up to 17 *AMA PRA Category 1 Credits*<sup>™</sup> through participation in the "live" (on-site in Boston) course, Lifestyle Medicine 2015, and an additional 4 "enduring" (online) credits through your optional participation in the online *Lifestyle Medicine for Weight Management* course.

The Royal College of Physicians and Surgeons of Canada recognizes conferences and workshops held outside of Canada that are developed by a university, academy, hospital, specialty society or college as accredited group learning activities.

AMA PRA Category 1 Credits™ claimed by physicians attending live events certified and organized in the United States for AMA PRA Category 1 Credits™ can be claimed through the agreement on mutual recognition of credits between UEMS and AMA, considered as being equal to the **European Continuous Medical Education Credits (ECMEC®)** granted by the UEMS. One AMA PRA Category 1 Credit™ is equivalent to one (1) hour of European EACCME Credit (ECMEC®), therefore up to 17.00 ECMEC® Credits are available. Each medical specialist should claim only those hours of credit that he/she actually spent in the educational activity.

#### **ACGME Competencies**

This course is designed to meet the following Accreditation Council of Graduate Medical Education competencies: patient care, medical knowledge, practice-based learning and improvement, interpersonal and communication skills, professionalism, and systems-based practice.
